CIVIL AVIATION AUTHORITY OF NEPAL

FOREWORD

FLIGHT OPERATIONS REQUIREMENTS General Aviation

Flight Operations Requirements (General Aviation), known hereafter as FOR (GA), is hereby issued by the Director General of Civil Aviation Authority of Nepal in pursuant to Article 82 of Civil Aviation Regulation 2058 B.S. (2002 A.D.).

These requirements complement and amplify the Civil Aviation Regulation 2058 issued by Civil Aviation Authority of Nepal under the authority of Civil Aviation Authority Act. 2053 B.S. (1996A.D.) and applicable to personnel involved in General Aviation Flight Operation of Nepalese Civil Registration Aircraft.

First, Second and Third Edition of Flight Operations Requirements were issued on August 1990, May 1998 and October 2005 respectively. The Fourth Edition of the FOR was issued separately in 2009 as FLIGHT OPERATIONS REQUIREMENTS (General Aviation) with amendments subsequently filled as required by ICAO Annex 6 Part II and Part III (General Aviation – Helicopters). The present Fifth edition of the Flight Operations Requirements (GA) has been greatly revised to remove disparities with the ICAO Annexes and has been streamlined to reflect the corresponding SARPs of the Annexes as Requirements in this manual.
